SONGS

Checkpoints Need the Help of HP

(tune: "We Three Kings of Orient Are")

Checkpoints need the help of HP
Heartless use of technology
Segregation, occupation
Where's the equality?

Ooo, if you want to do what's right
If you follow freedom's light
Boycott HP, join our family
Join the side for equal rights

Folks in Gaza long to be free
But Hewlett-Packard helps the navy
Besiege the land and keep them stranded
Where's the humanity?

Ooo, if you want to join our fight
For justice, hope, and equal rights
Boycott HP, join our family
Take a stand this very night

Segregation profits HP
They rake in cash from racist IT
Their coffers grow from new Jim Crow
Thriving on bigotry

Ooo, if you want to do what's right
For Palestine, for civil rights
Boycott HP, join our family
Stand for justice, do what's right

Hewlett-Packard's Bringing Us Down

(tune: "Santa Claus is coming to Town")

Oh, you'd better not shop
You'd better not buy
'Til HP stops gaining
From apartheid
Hewlett-Packard's bringing us down

They're making a list
A big database
Palestinians' rights
They daily erase
Hewlett-Packard's making us frown

[CHORUS]

They build the infrastructure
To block**ade** the Gaza Strip
Supply all the computers
For every tank and ship, so

You better watch out
You better not buy
International law
Their actions defy
Hewlett-Packard's bringing us down

O Little Checkpoint by Bethlehem
(tune: “O little town of Bethlehem”)

O little town of Bethlehem
Imprisoned by HP
Ten million shekels have been spent
To rule the Galilee
One comp’ny brings the servers, the
software and IT
The hopes and dreams of Palestine
Are ruined by HP

O Hewlett-Packard, we beseech
Yet still we see thee lie!
About Israeli I.D. Cards
The tools to terrorize
Yes in this I.D. shineth
The ghost of Polaroid
Whose services for apartheid
You now have redeployed

How silently the people wait
In checkpoint fortress maze
The biometrics from HP
Inform the soldier’s gaze
They run homeland security
For ethnic cleansing’s reign
Where colonizers welcome them
The conquered to constrain

O wholly owned subsidiary
called HP Enterprise
Cast out your sin and enter in
Don’t be apartheid’s eyes
We hear your human rights talk
But this is judgment day
Oh, come to us, abide with us
Free Palestine today

Boycott HP Because You See
(tune: “God Rest Ye Merry Gentlemen”)

Boycott HP because you see
They bring only dismay
Israel’s illegal settlements
Are where they work today
The Ministry of Industry
Sees fit to pay their way

[Refrain]

O-oh justice for Palestinian
Women and men
The question is not i-i-if but when

In prisons in the holy land
They bring technology
Resisters who defend their land
Kept under lock and key
Is-rael jails people for their words
And daring to be free

[Refrain]

O-oh justice for Palestinian
Women and men
The question is not i-i-if but when

With facial recognition
HP keeps the people down
The tools of apartheid control
Under which people drown
Facilitating subjugation, checkpoints at
each town

[Refrain]

O-oh justice for Palestinian
Women and men
The question is not i-i-if but when

Shekels, Shekels, Shekels

(tune: "Dreidel, Dreidel, Dreidel")

They have a little camera
It knows your hands and face
And when it's at the checkpoint
It keeps you in your place

Oh, shekels, shekels, shekels
To keep the folks at bay
When HP does surveillance
Ten million they will pay

Your movement is restricted
Your attitude is checked
They lock you in your ghetto
Repression they perfect

Oh, shekels, shekels, shekels
To keep the folks at bay
And when they build apartheid
Ten million they will pay

Ethnicity's important
They put it on your card
That's how they know to build a wall
Between your house and yard

Oh, shekels, shekels, shekels
To take the people's land
But if you boycott HP
For freedom you will stand

But if you boycott HP
For freedom you will stand

Don't You Buy from Hewlett-Packard

(tune: "Deck the Halls")

Don't you buy from Hewlett-Packard
Fa la la la la, la la la la
See, there's just this troubling matter
Fa la la la, la la la la

They're profiting from segregation
Fa la la, la la la, la - la - la
Also mass incarceration
Fa la la la la, la la la la

Equality's a right, so we're taught
Fa la la la la, la la la, la
Drop HP and join the boycott
Fa la la la, la la la la

Value human life this Yuletide
Fa la la, la la la, la - la - la
It's wrong to profit from Apartheid
Fa la la la, la la la la

Folks in Gaza can blame HP
Fa la la la la, la la la la
For helping the Israeli navy
Fa la la la, la la la la

Hewlett-Packard's wrong, let's reach
'em
Fa la la, la la la, la - la - la
Boycott is the way to teach them
Fa la la la, la la la la

CIAO HP

(tune: “*Bella ciao*”)

Hey Hewlett-Packard
Check out this placard
Human *rights* will prevail
and apartheid fail
So stop your bailing that ship ain’t sailing
Stop your jailing of Palestine

Well hello HP
Say can you hear me
Or can you *only* hear *share* prices *rising*
Internet servers are life preservers
Of the settlers’ ship of state

I sent an email regarding Israel
When you supply *IT* and *ID* cards
Your biometrics suppressing *ethnics*
Are the *Israeli* Polaroid

Your Basel system helps Israel list ‘em
Checkpoints *are* merely *part* of their prison scheme
Your *computers* enable *persecutors*
Stop supporting this regime

High-tech policing, you’re never ceasing
From China *to* the US *profits* increasing
Why don’t you *find* a new business model
Like maybe *helping* us to print

So Hewlett-Packard
Check out this placard
Human *rights* will prevail
And *Israel* will fail
To kill a nation
So in summation
Stop surveilling Palestine
So stop your bailing that ship ain’t sailing
Stop your jailing of Palestine
